

EVM-DCIM3-E

08+ Economy Dodge Charger Interface Module

The EVM-DCIM3-E is an economy Dodge Charger interface module with 4 core features for basic vehicle upfit requirements.

“Plug n’ play” installation provides direct interface while user connections follows traditional industry wiring practices of connecting to police related electronic equipment.

True park kill and convenient horn ring connections for either positive or negative switching sirens are the same features found with the original, full version, EVM-DCIM3.

Installation time, wiring and materials are drastically reduced which translate into cost savings in the outfitting process while utilizing full use of the vehicle’s primary functions.

A 12-pin cabin power leads / grill wiring connector kit with wiring guides is included with each module, everything required for a successful upfit.

Key features:

- Fully functional and self contained, easily installs to existing onboard PTIM harness
- Compact footprint - 2” x 3”
- 2 Programmable features
- Circuit overload protection
- Installer friendly, no splicing, resistors or relays - Eliminates guesswork
- 12-pin power/accessory connector kit included
- Potted compound construction seals against vibration and moisture
- Designed for 2008 & 2009 Dodge Charger and Magnum equipped with police package option

Standard functions:

- Headlight flash with park-kill option
- Tail light flash
- Park kill output
- Horn & Horn ring (+ or – sense)
